

Stop Nuclear Expansion at Hinkley Point

What you can do to stop Hinkley C

- Join Stop Hinkley today to demonstrate the strength of feeling against nuclear power both in the South West and nationally. Details inside.
- Write to your MP asking them to join the group of MPs opposed to new nuclear build.
- Check www.stophinkley.org regularly to keep in touch.
- Distribute copies of this leaflet to all your friends. Download copies from the Stop Hinkley website or contact us.

**We have fought off Hinkley C before.
Now we need your support to do it again.**

Standing orders save us the costs and time involved in printing and posting the annual reminders [as well as saving you time and inconvenience].

STANDING ORDER FORM

I would like to make a Monthly / Annual payment of £ £ until further notice.

My Name and address is:

.....
.....
.....
.....

My bank is

Address:

.....Post Code:

Sort Code:Account No:

The name of my Account is:
(As shown under the £ sign on your cheques.)

Signature & Date:

INSTRUCTIONS TO BANK:

Please pay the above amount as soon as possible, THEN

* EITHER Monthly thereafter OR Annually on 19th January
to: Stop Hinkley, Account No. 19041903, Sort Code 09.01.52
Santander, Bootle, Merseyside GIR 0AA

Please Quote Ref:(To be completed by Stop Hinkley.)

* Delete as required

STOP HINKLEY PATRONS

Raymond Briggs, Julie Christie, Terry Jones,
Caroline Lucas MP, Jonathon Porritt, Molly Scott Cato MEP,
Dame Vivienne Westwood and John Williams

Did you know

- EdF plans to build two giant reactors at Hinkley.
- The European Pressurised Reactor (EPR) has been plagued with construction problems and overspend in Finland and France. Many have concerns over its safety.
- The EPR's highly radioactive 'superheated' fuel rods will be left on site for at least 100 years, increasing its exposure to terrorist risks.
- Studies have shown increased cancer and infant mortality downwind from Hinkley Point.
- The UK taxpayer is currently expected to pay £83 billion and rising to decommission existing nuclear sites.
- The cost of n-waste management from a new generation of reactors will be capped by government. Taxpayers will pay the rest.
- Existing UK nuclear sites are mostly around coastlines which are jeopardised by rising sea levels.
- The Fukushima accident in Japan has shown how dangerous nuclear power can be.
- The UK does not need nuclear: We can meet electricity demand with clean, safe renewable energy and efficient consumption.
- The South West's marine renewable resource - wind, waves and tides – could produce more power than Hinkley C, and much more safely.
- Nuclear power is not cheap, not safe and not necessary. As the late Michael Meacher, MP and Stop Hinkley patron, said: "The UK needs new nuclear like a hole in the head."

Stop Hinkley was founded in 1983 to campaign against the proposed Hinkley C development. SHE played a major part in the 14-month public enquiry during 1988-9, including the co-ordination of evidence from dozens of individuals and organisations. Over 20,000 people were encouraged to object.

We have continued to campaign for alternative renewable energy sources and energy conservation measures.

The closure of Hinkley A was announced in May 2000, we believe as a result of our campaigning.

Now, however, Hinkley C is back on the agenda and Stop Hinkley is campaigning vigorously on behalf of its members. We inform the press of developments, meet with industry and regulators and network with experts and groups to protest against nuclear power locally and nationally.

Our website www.stophinkley.org is regularly updated with the latest news and developments in the campaign, and is a useful resource for information.

MEMBERSHIP FORM

Send completed form to:

Stop Hinkley Membership Sect,
8 The Bartons, Yeabridge, South Petherton TA13 5LW

Join us and help show the government the folly of backing the publicly funded environmental loser that is nuclear power.

This is not just problem on someone else's doorstep, this is a choice about how we live our lives now and how we decide the future for those that come after.

The suggested annual subscription is £12 for an individual (£5 unwaged) or £20 for a family. We ask supporters to donate as much as you feel able, but whatever you give, however small, is gratefully received.

Subscriptions are renewable in February each year.

Please make cheque payable to 'Stop Hinkley'

If you prefer to pay by Standing Order, please see over

We can also accept subscriptions via PayPal to
donation@stophinkley.org

Thank you for your support, which is greatly appreciated at this crucial time. The bigger our membership, the louder our voice.
